

LIVING OUR COAST IN CONTACT WITH THE SEA

GULF OF POLICASTRO

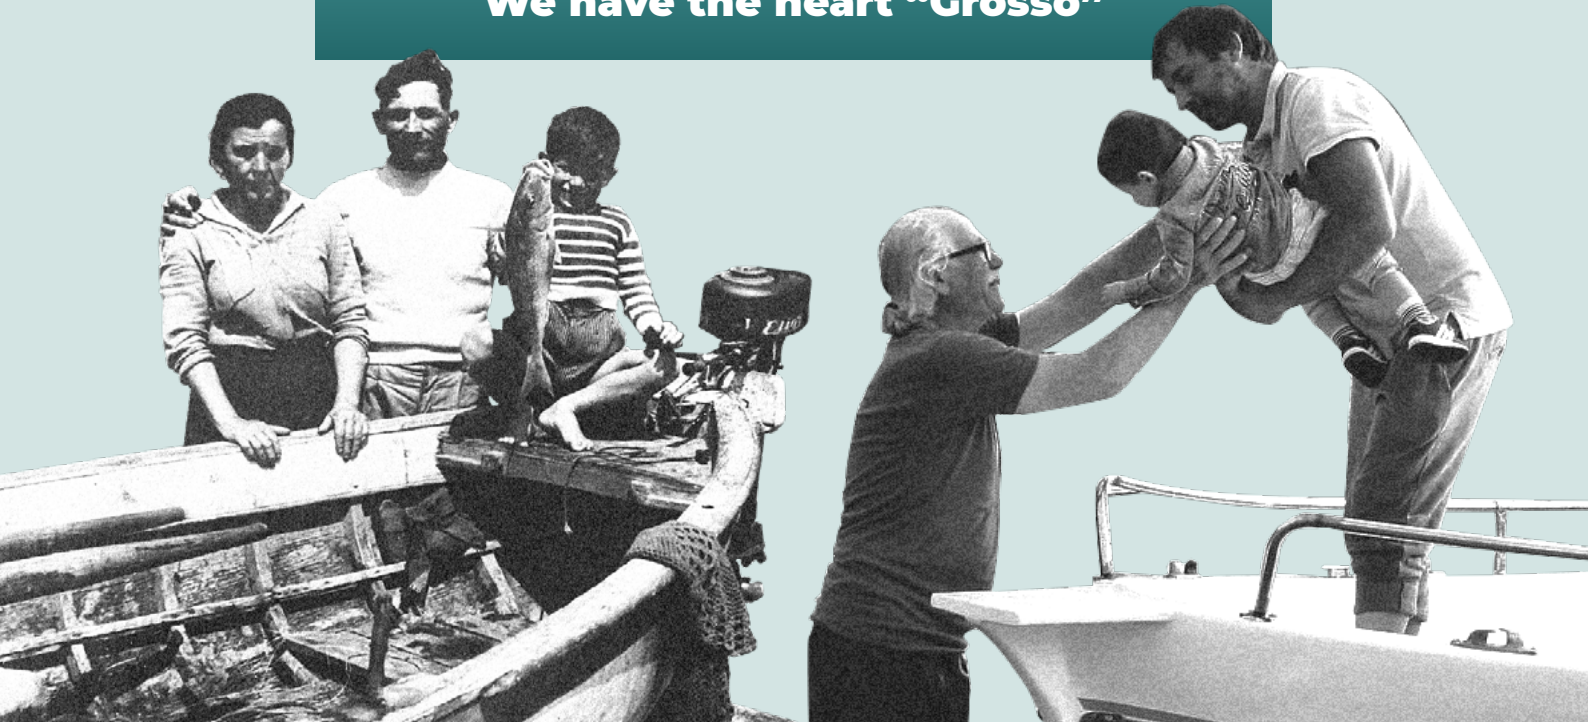

Calabria • Basilicata • Campania

A FAMILY TRADITION THAT COMES FROM THE SEA

Our story began in the 1960s, thanks to sir Nicola Grosso, who, with his small “gozzo” boat, started offering the first boat trips, combining this with his work as a fisherman. Today, the third generation continues not only the craft passed down by its founder, but also his special vision of offering more than just tourism relaxation, fun, nature, history, and culture.

Here, the ancient art of navigation blends with the modernity of our boats. We constantly invest in professionalism and technology to protect the sea and its stunning coastlines, transforming old trades and traditions into eco-friendly, sustainable practices.

We love our work, our sea...
We have the heart “Grosso”
